FSL Announcement – 12th May, 2016

The FSL are pleased to announce that the services of our National Coach, Mark Andrew Burke have been secured for a further 2 years.

In his 1st season, Mark has been instrumental in working with the FSL to establish a new FSL National Junior Program. This has already paid dividends, with marked improvement from the junior players in the program and a successful ETC U15 in Hasselt, Belgium. Mark hopes this experience will form the basis of motivation and development for all juniors within the program.

The Seniors have also performed well and the National Selection trainings were a resounding success. Results from ETC3 in Bucharest, Romania were pleasing and the return of some young players next year should further bolster the Senior program.

The Sportlycée program is also set to be expanded, with real potential for new athletes being introduced to the program in 2016/17.

Please join us in wishing Mark well, and we look forward to further improvements and success during his tenure as National Coach of Luxembourg.

Le Conseil d'Administration de la FSL
